

Mohammed Faisal

Software Developer (Full-Stack)

iamfaizy123@gmail.com • +91 7994010513 • Kerala, India • [Github](#) • [LinkedIn](#)

PROFESSIONAL SUMMARY

Full-Stack Software Developer with **1.8+ years of professional experience** building scalable web applications, AI-powered solutions, real-time communication systems, and business automation platforms. Experienced in developing modern frontend applications using **React.js, Next.js, TypeScript**, and backend services with **Node.js, Express.js, MongoDB, PostgreSQL, and GraphQL**. Proven experience contributing to **production applications**, integrating REST APIs, implementing secure authentication, and collaborating in Agile development teams. Passionate about building clean, maintainable, and user-focused software that delivers reliable business solutions.

TECHNICAL SKILLS

Frontend

- React.js
- Next.js
- TypeScript
- JavaScript (ES6+)
- Tailwind CSS
- Redux Toolkit
- Responsive Web Design

Real-Time Technologies

- [Socket.IO](#)
- WebSockets

Development Practices

- Agile / Scrum
- RESTful API Design
- Performance Optimization
- Responsive UI Development
- Clean Code Principles

Backend

- Node.js
- Express.js
- REST API Development
- GraphQL
- JWT Authentication
- Bcrypt
- Joi Validation
- MVC Architecture

AI & Integrations

- AI API Integration
- AI-Powered Application Development
- Cloudinary
- Multer
- Nodemailer

Databases

- MongoDB
- Mongoose
- PostgreSQL
- Database Design
- Aggregation Pipeline

Tools & Platforms

- Git
- GitHub
- Postman
- Figma
- Vercel
- Render

PROFESSIONAL EXPERIENCE

Software Developer (Full-Stack)

Sharaco Technologies (Product-Based Company) | Kerala, India **November 2025 – Present**

- Contribute to the development and enhancement of **3 production applications**: [FlowBee.io](#), [booking.flowbee.io](#), and Kootaan CSM.
- Develop and maintain **6+ core business modules**, including Dashboard, Booking Management, Calendar, Reports, User Management, and Chat.
- Build responsive and reusable frontend components using **React.js**, improving application consistency and maintainability.
- Integrate frontend applications with backend **REST APIs** to deliver seamless user experiences.
- Investigate and resolve production issues across booking management and dashboard modules to maintain application reliability.
- Collaborate with backend developers to deliver new features and improve existing workflows across multiple products.
- Participate in Agile sprint planning, daily stand-ups, and feature discussions within an **8-member development team**.
- Follow clean coding practices, code reviews, and modern frontend development standards to deliver production-ready software.

Software Developer (Full-Stack)

Full-Stack Developer

Bridgeon | Kerala, India **October 2024 – October 2025**

- Completed professional Full-Stack development training while contributing to real-world software development projects.
- Built **2 full-stack applications**, including an AI-powered learning platform and a real-time chat application.
- Developed responsive frontend applications using **React.js, Next.js, TypeScript, and Tailwind CSS**.
- Designed and implemented **REST APIs and GraphQL APIs** for authentication, user management, scheduling, and application features.
- Developed backend services using **Node.js, Express.js, MongoDB, Mongoose, and PostgreSQL**.
- Implemented secure authentication and authorization using **JWT, Bcrypt, Joi Validation, and MVC Architecture**.
- Developed real-time communication features using **Socket.IO** and **WebSockets**.
- Integrated third-party services including **Cloudinary, Multer, Nodemailer**, and AI APIs.
- Collaborated with mentors and development teams using **Git, GitHub, Postman, Figma**, and Agile/Scrum practices.
- Participated in debugging, testing, code reviews, and feature implementation following clean coding standards.

PROJECT EXPERIENCE

SkillMentorX – AI-Powered Mentor–Student Platform

Tech Stack: Next.js, TypeScript, Node.js, Express.js, MongoDB, PostgreSQL, GraphQL, Redux Toolkit, [Socket.IO](#)

- Developed a full-stack AI-powered learning platform supporting mentor and student workflows.
- Built responsive user interfaces using **Next.js, TypeScript**, and **Redux Toolkit**.
- Designed a scalable backend using **Node.js, Express.js, MongoDB**, and **PostgreSQL**.
- Implemented secure Email/Password and OTP authentication.
- Developed **12+ REST and GraphQL APIs** for user management, scheduling, mentor matching, and course management.
- Integrated **Socket.IO** for real-time chat, notifications, and live mentoring.
- Built role-based dashboards for students and mentors.
- Integrated AI-powered chatbot functionality to enhance learner support.

Real-Time Chat Application

Tech Stack: React.js, Node.js, Express.js, MongoDB, Redux Toolkit, [Socket.IO](#)

- Developed a secure full-stack real-time chat application with role-based authentication.
- Implemented real-time messaging, typing indicators, notifications, and media sharing using **Socket.IO**.
- Designed REST APIs for user management and chat persistence.
- Integrated **Cloudinary** and **Multer** for secure file and media uploads.
- Applied Redux Toolkit for efficient client-side state management and responsive user interactions.

EDUCATION

Professional Software Development Training (Full-Stack / MERN)

Professional Software Development Training (Full-Stack / MERN)

Bridgeon Skillversity | Kerala, India | 2024 – 2025

- Completed intensive training in Full-Stack Web Development using React.js, Next.js, Node.js, Express.js, MongoDB, PostgreSQL, GraphQL, and modern software development practices.
- Built real-world full-stack applications with REST APIs, authentication, real-time communication, and AI integrations.

LANGUAGES

- English – Professional Working Proficiency
- Malayalam – Native Proficiency
